Grants and scholarships do not have to be repaid. Some students also qualify for student loans to assist in paying this net price; however, student loans do have to be repaid.

Please Note: The estimates above apply to full-time, degree/certificate-seeking undergraduate students only. Students that receive tuition and fee waivers are excluded from this calculation.

These estimates do not represent a final determination, or actual award, of financial assistance or a final net price; they are only estimates based on cost of attendance provided to students in 2023-24. Cost of attendance and financial aid availability change year to year. These estimates shall not be binding on the institution of higher education, or the State. Not all students receive financial aid. In 2021-22, 38% of our full-time students enrolling for college for the first time received grant/scholarship aid. Students may also be eligible for student loans and work-study. Students must complete the Free Application for Federal Student Aid (FAFSA) in order to determine their eligibility for Federal financial aid that includes Federal grant, loan, or work-study assistance. For more information on applying for Federal student aid, go to <http://studentaid.gov>. Please visit www.delmar.edu/afford. Tuition and fees are based on 12 hours of enrollment. Different academic programs have varying costs such as lab fees, testing fees, etc. and could be slightly higher than the published tuition and fee totals.
