# Course Descriptions

**Once Upon A Camp** - Step into a world of imagination and adventure at Once Upon a Time Camp! Designed for students in 1st through 5th grade, this engaging program brings stories to life through creativity, play, and exploration. Campers will dive into classic fairy tales, modern stories, and their own original ideas while building reading, writing, and collaboration skills.

**Junior Chefs** - Junior Chefs is a hands-on class designed to teach young cooks essential kitchen skills, safety, and cooking techniques through interactive, themed lessons. Participants learn to prepare savory dishes while fostering confidence and teamwork in a professional, fun, and safe environment.

**Healthcare Careers** - Introduces students to a variety of careers in the healthcare industry and provides a foundational understanding of the skills, education, and responsibilities required in health-related professions. Students will explore career pathways such as nursing, medical assisting, emergency services, physical therapy, mental health, and public health. Through interactive lessons, case studies, guest speakers, and hands-on activities, students will learn about basic healthcare concepts, medical terminology, patient care, and workplace expectations. The course also emphasizes safety, ethics, confidentiality, and professionalism in healthcare settings.

**STEM Careers** - This engaging, hands-on course introduces middle school students to exciting careers in Science, Technology, Engineering, and Mathematics (STEM). Through interactive projects, experiments, and team challenges, students will explore how STEM is used in real-world careers such as engineering, robotics, coding, environmental science, healthcare, and space exploration.

**Electrical Boards** - Circuit board overload! This course teaches foundational electronics by having campers build working circuits, robots, and interactive devices using wires, LEDs, sensors, and resistors. This hand-on class introduces coding, soldering, and troubleshooting in a safe, fun, and creative environment.

**Code Breakers** - Dive into coding! In this class, students learn to build websites, create apps, and develop games, often through the Black Rocket curriculum. Learning JavaScript for web projects and Python for programming fundamentals, sharing their projects at the end.

**Roblox Makers** - This course is designed to teach participants how to build, design, and animate their own 3D worlds using Roblox Studio.

**Carpentry Adventures** - This course provides hands-on training in woodworking, tool safety, and building techniques, designed for all learners. Students will learn to read blueprints, measure, use hand/power tools, and construct projects for their appropriate age level while focusing on safety and building confidence.

**Theatre Camp** - Step into the spotlight at Theatre Camp! Designed for students in 1st through 5th grade, this fun and engaging program introduces young performers to the exciting world of acting, storytelling, and stage performance. Campers will explore the basics of theatre through interactive games, improvisation, and creative expression. They will learn how to use their voice and imagination to bring characters and stories to life. Activities include acting exercises, movement and expression, simple script work, and group performances.

## Course Descriptions (cont.)

**NextGen Chefs** - This high school culinary camp offers hands-on cooking experiences for teens in a commercial kitchen setting, focusing on foundational skills like food safety and sanitation, culinary preparation foundations, basic culinary skills, menu preparation, diverse cuisines, and basic nutrition.

**Cultured World Experiences** - Discover the richness and diversity of our world at Cultured World Experiences Camp! Designed for students in 1st through 5th grade, this camp introduces young learners to global cultures through immersive, hands-on experiences in art, music, dance, cuisine, and storytelling. Campers will “travel” to different countries each day, exploring traditions, customs, and celebrations from around the globe. Activities include creating cultural crafts, learning traditional songs or dances, and engaging in interactive games that highlight the uniqueness of each culture.

**Career Exploration** - This fun and interactive camp introduces elementary students to a wide variety of careers in an engaging and age-appropriate way. Through hands-on activities, games, storytelling, and creative projects, students will explore different jobs such as doctors, engineers, teachers, artists, firefighters, and more. Each day, students will learn about a new career by participating in role-playing activities and simple challenges that show what people in those jobs do. The camp encourages curiosity, creativity, and imagination while helping students begin to think about their interests, talents, and future possibilities.

**Mad Scientist**- Get ready to mix, build, experiment, and explore at Mad Scientist Camp! Designed for students in 1st through 5th grade, this hands-on camp sparks curiosity and excitement about science through fun, interactive experiments and creative discovery. Campers will dive into topics like chemistry, physics, biology, and engineering using safe, age-appropriate activities. Each day encourages questioning, problem-solving, and teamwork as campers think and act like real scientists.

**Creative Writing** - Unleash your imagination and find your voice at Creative Writing Camp! Designed for middle school students in grades 6–8, this camp invites young writers to explore storytelling, poetry, and personal expression in a supportive and inspiring environment. Campers will experiment with a variety of writing styles, including short stories, poetry, fantasy, realistic fiction, and journaling. Through fun prompts and guided lessons, students will learn how to develop characters, build engaging plots, and create vivid settings. They’ll also practice editing and revising their work to strengthen their writing skills.

**Industry Hot Jobs** - This high school career exploration course helps students explore a wide range of career options and develop the knowledge and skills needed to make informed decisions about their future. Students will assess their interests, strengths, and values while investigating careers across multiple industries such as business, healthcare, technology, education, and skilled trades. Students will learn about job responsibilities, required education and training, workplace expectations, and emerging high-demand careers. The course also emphasizes essential workplace skills including communication, teamwork, professionalism, and problem-solving.
