

## MLA Works Cited Page

**What is the MLA Work Cited page?** The Works Cited page is a list of sources you quoted, paraphrased, or summarized in your paper; you must document, or cite, borrowed words, ideas, or facts by creating a Works Cited list at the end of your paper.

### How do I format my Works Cited page?

- Your Works Cited list begins on a new page at the end of your paper
- Number your Works Cited as the next page in your paper
- Center title--Works Cited
- Double space--entire document
- Entries listed alphabetically by the authors' last names (No author? Use the title to alphabetize)

### How should individual entries be formatted?

- The first line of each entry is flush with the left margin
- All other lines are indented five spaces to create a hanging indentation
- Space once after all punctuation

**Note:** For help citing individual sources, refer to *MLA Handbook*, pages 111-112.

Information is based on the *MLA Handbook for Writers of Research Papers*, 8<sup>th</sup> Edition. Individual instructor's specifications may vary, so check with your instructor before formatting and submitting your work.
